Ref. 2024_pp_004 To be sent by email

Thursday, March 28, 2024

To: ITTF Member Associations and NPCs

Subject: Doubles pairs in Paris 2024

Following the request of several member associations and NPCs, we want to share some frequent questions that we have received regarding the process of selection of doubles slots for the Paralympic Games.

• If I am number one ranked in doubles ranking, do I automatically get a doubles slot?

Not necessarily. Doubles slots will be awarded to the players who are part of the best doubles pairs. This is why it is essential that the NPC applies for the slots informing about the doubles pair that they want to try to qualify using this form

https://paratabletennis.typeform.com/Doubles-PG2024

Entry into a doubles event requires previous application from NPCs, the application period will go from 1 January 2024 until 20 April 2024.

If you have already sent some pairings, please, remember that you can change the pairings simply by submitting another application. In case of conflict, that is, a player appears in two different pairs applications, the last application will prevail.

• Why the NPCs have to apply for doubles slots?

Doubles slots were introduced in the qualification guide for Paris for two main reasons:

To offer the opportunity for players who might not have the chance to qualify by singles.
To make sure that we have enough doubles pairs (and those pairs are the best possible

ones) in some of the events where the number of participants NPCs is reduced.

We want the doubles slots to be used for that purpose, that is, to form strong doubles pairs. Obviously, we cannot allow a player to qualify by doubles if the player does not have a partner from his or her NPC. We also do not want a player to qualify by doubles if his or her partner is not a strong doubles partner. This is why the sum of the points of both players will be the decisive factor.

INTERNATIONAL TABLE TENNIS FEDERATION Headquarters, Operations and Olympic/Paralympic Games

• Why players in some classes get a priority if they apply for doubles slots for a certain event?

There are some events in the lower classes that have a limited potential number of pairs. The doubles slots of the lower classes are intended to be used in the lower classes events to make sure that the events are viable in the Paralympic programme.

• Is it possible to form pairs with players from different NPCs?

No, it is not possible. The IPC regulations apply here, doubles can only be formed by players from the same NPC.

• Is it possible to enter more than one pair per NPC?

Yes, unlike the team event, the doubles are considered individual events by the ITTF so the limit of one team per NPC imposed by IPC does not apply here. Each NPC can enter 2 players per event in singles events and 2 pairs per event in doubles and mixed doubles events.

• Does a player need to meet the tournament quota to be allowed to apply for a doubles slots.

Yes, and we must bear in mind that the quota is different for singles and for doubles. Any player applying for a doubles slot must meet the criterion of having participated in a minimum number of doubles events (the number varies depending on the continent).

• What happens if a pair of players apply for doubles slots and there is one slot available for one of them but not for the other?

In that case, none of the players will receive a doubles slot. No player can receive a doubles slot if he or she does not have an already qualified player to play with.

• When will the doubles slots be announced?

Doubles slots will be announced on 22 April.

• Can you provide one example on how the calculation will be done?

In the following example, we will present some data to simulate the calculation of slots for the doubles events in lower classes in standing, that means, classes 6 to 8.

The players highlighted in orange color are already qualified by singles and the players in green color are the ones who get the doubles slots. In this example, we assume that there will be:

- 3 doubles slots for C6
- 3 doubles slots for C7
- 4 doubles slots for C8

At the end of the process, we were not able to allocate one of the doubles slots in C7 because there was not candidate meeting the criteria. According to the qualification guide, that slot will be assigned by the bipartite commission.
